

Eric Gabriel Cheng Li

EDUCATION AND CO-OP AVAILABILITY

Simon Fraser University |

BSc Interactive Arts and Technology (SIAT)

GPA 3.50 | Dean's Honour Roll, Fall 2024

2023 - 2027

Up to 16 months Co-op

TECHNICAL SKILLS

Tools: Blender, Maya, Substance 3D Painter, Substance Designer, GAEA, Unity, Unreal Engine, Godot

Art & Design: Environment Art, Hard-Surface Modeling, Sculpting, Texturing, Concept Art, Level Design, Game Design, Animation

Production: Photoshop, Krita, After Effects, DaVinci Resolve, Figma, Git, GitHub, Unity Version Control

SELECTED PROJECTS

VR Environment & Exploration Narrative Design - Something Lurking | *Blender, Substance 3D, Unity XR*

Art Director, Level Designer & Environment Artist

School Project - SFU VR course project.

- **Led** the spatial and visual direction for a collaborative VR exploration experience, translating playtest feedback into level-flow maps, room concepts, and a stronger narrative arc.
- **Modeled** most environments and props in Blender, developed materials in Substance Designer and Painter, and supported a three-scale gameplay loop in Unity XR.
- **Iterated** on environmental clarity, tension, and narrative flow through playtesting; the final demo was selected for an SFU prospective-student showcase.

Ink Based Self-Drawn Platformer Game- The Last of Stars | *Game Art, Figma*

Artist & Level Designer

Personal Game Jam Project - SFU Summer Summit

- **Designed** platforming routes, traps, recovery platforms, and pacing around a drawing mechanic and environment narratives about the continuously collapsing environment.
- **Designed** the alien astronaut protagonist with curve and triangle geometry language in Figma.
- **Created** readable game art and layouts with a four-person team, shipping a playable browser platformer in three days.

Wordless 3D Animated Short - BLU | *Maya, Blender, Concept Art, Animation*

3D Modeler, Concept Artist & Animator

School Project - SFU animation course project

- **Created** original Maya and Blender assets, concept art, and animation for a wordless 3D short, refining staging, motion timing, and visual consistency.
- **Collaborated** with storyboard, lighting, and technical animation teammates to maintain a cohesive production pipeline.

COMMUNITY & VOLUNTEER WORK EXPERIENCE

Fallout 4 Capital Wasteland Modding Team |

Environment & Prop Modeler

Jul 2026 – Present

- **Recreated** fallout 3 game assets with modern **Bethesda** workflow, using .nif format and 3 different type of maps rendered straight from Substance 3D Painter.
- **Modeled** over 5+ prop assets for the modding team to place them in the Fallout 4 game environment.

SFU 3D Club|

Meeting Coordinator Executive

Sep 2026 – Present

- **Held Meetings** for start-up clubs in SFU Surrey campus.

SFU Game Development Club|

Graphic Design Executive

Sep 2026 – Present

- **Designed** posters, insta grid and event banners with layout, grid, hierarchy and gestalt knowledge.
